

zzZebra

Casper products for the next generation of great sleepers

What is zzZebra?

At Casper, our goal is to awaken the potential of a well-rested world, and for us this mission starts at birth.

We believe the key to developing great sleep habits is to start before bad ones have the chance to creep in. And we know that if we can help the next generation to be great sleepers, parents sleep better too.

Just like zebras, families sleep best in a herd.

Babies (and parents) love The Stripe

Built to Grow

The Stripe, Casper's first baby mattress, is designed to last as your little one grows.

Firm on one side for infant safety, and plush on the other for your toddler, The Stripe's two-toned technology is made to last through multiple stages of baby growth.

Safety first, we know the drill

All Casper Mattresses, including The Stripe, are CertiPUR-US certified.

The Stripe, in addition, is the recipient of the **GREENGUARD Gold certification**, the industry standard seal of approval when it comes to chemical emissions in baby mattresses.

Industry standard size

The Stripe mattress fits perfectly in all cribs sold in North America.

Hybrid foam construction

Made with the same material you know and love within Casper pet and larger human mattresses.

Hypoallergenic

We've created the cleanest and most sustainable mattress for better z's.

Machine washable cover included

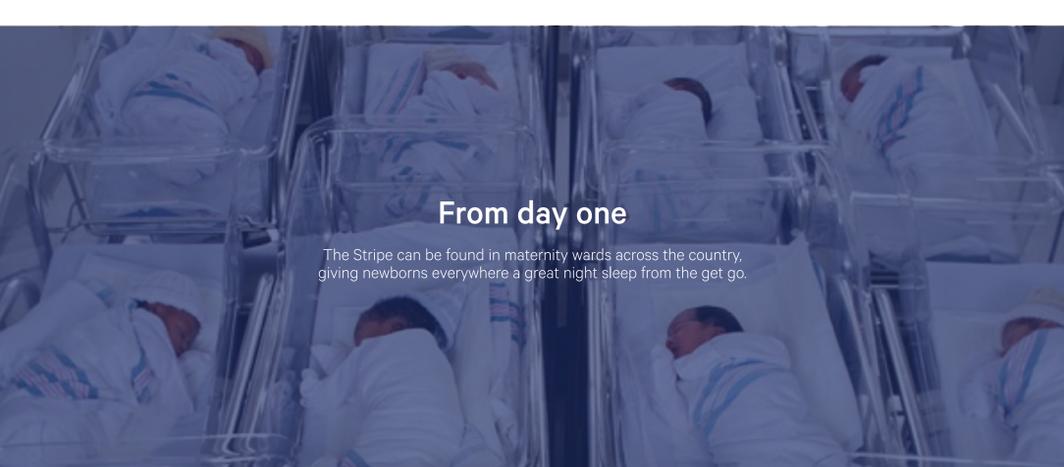

Babies are messy. We get it.

Peek-a-boo

The convenience of doorstep delivery isn't going anywhere.

It's just showing up in a slightly smaller box.

From day one

The Stripe can be found in maternity wards across the country, giving newborns everywhere a great night sleep from the get go.

Sounds to snooze to

Whether you're up changing a diaper or resting up before a big presentation, we're here to soothe you.

Available on all streaming platforms.

In Your Dreams with Chris Gethard

What's the most puzzling dream you've ever had? Ever wonder what it could possibly mean?

Every Monday

Sleep Like a Baby

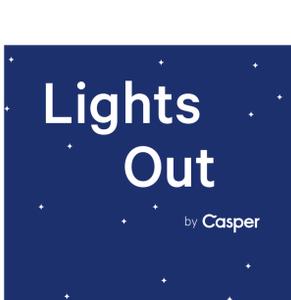

Join a rotating guests of psychiatrists, pediatricians, and baby sleep consultants discuss how to help newborns sleep better.

Every Wednesday

The Night Shift

Discuss economic and job-related implications of good sleep, and learn more about companies who are "sleep-forward".

Every Friday
